Chapter 1

Insert the Heading to Chapter 1

[Insert your text to chapter 1 here. A pretend example of a silly table is provided below (i.e., Table 1.1).]

Table 1.1: A silly glossary for research reports.

When Professors write ...	they REALLY mean ...
Typical results are shown ...	The best results are shown ...
It is generally believed that ...	A couple of other guys think so too
Thanks to Al K. Seltzer for assistance and to I.P. Daly for valuable discussions	Seltzer did the work and Daly explained what it meant

Chapter 2

[Insert your text to chapter 2 here. A pretend example of a silly figure is provided below (i.e., Figure 2-1).]

Let's pretend that instead of this text I provided a figure of myself smoking a most excellent cigar. As long as we're pretending, let's assume that figure shows that I have a really big smile on my face.

OK, the truth is that I wanted to provide an example of a figure to contrast the text in the figure's caption to the text entered as a entry in the *List of Figures*. This difference is controlled through the `\caption[]{}` command. Appendix B of "Read Me First (v12).pdf" provides a primer for this issue.

Figure 2-1: Dr. Dowd enjoying a wonderful cigar. From the smile on his face we are left to wonder if the cigar is an H. Upmann *Corona Imperial* or a Punch *Rothchild* (with a double maduro wrapper, of course).
